

What is Electronic Time Capsule?

Imagine you could deliver important messages you create today to loved ones at some time in the future. It's easy with Electronic Time Capsule — a unique, secure online service that brings the traditional "time capsule" concept to the Web.

Electronic Time Capsule is a unique way of sharing your life with those you love. Easy and convenient, too, it ensures that your feelings, life story and family history are documented and told — at a time you designate — to your loved ones.

The gift of a lifetime for a lifetime

- ✿ Compose messages to express your feelings, report your travels and experiences, recall memories and share life stories.
- ✿ Choose when your messages will be delivered electronically - at any time you designate in the future.
- ✿ Leave a legacy... Even if you pass away unexpectedly, Electronic Time Capsule will deliver your thoughts and feelings forever.
- ✿ Discuss mature topics and deliver them when your child will understand.
- ✿ Create a capsule anywhere, anytime at a moment's inspiration. All you need is internet access.
- ✿ Be certain your child (loved one) receives the time capsules... no flood or fire or hard drive failure can destroy your memories (pictures, video, letters).
- ✿ Plus, Electronic Time Capsule is accessible online 24 hours a day, 7 days a week.

From the Creator

My name is David Ryan, I have been defined mostly as an inventor / entrepreneur by my peers and friends. I think it is mostly because anytime I have a need that is left unfulfilled I tend to look for a solution!

After I became a father, I started to write a journal for my daughter. Writing my thoughts and emotions for her made me feel this was the greatest gift I could ever give her. More than toys, the recording of our family life was a gift that would last forever...but was it?

There was some pitfalls to the written journal, I couldn't discuss mature topics such as 9/11, I couldn't guarantee she would receive the book (fire, flood), many other people were important to my daughter (grandpa/grandma) and I also wanted them to share. Those needs brought me to create the Electronic Time Capsule.

As I shared my creation it became clear the motivations vary from individual but one constant remains: The need to share, the need to communicate to the people who are the most precious to us.

Share It Forward!
David Ryan
